Additional Information:

Lamont Casting has been one of the leading children and young people's casting agencies in the North-west for the past 25 years. All our talented actors (4 - 18 years) are hand-picked for being natural and expressive, making them an invaluable asset on any production. The agency particularly specialises in voice-over artists and has a strong extra-work division (4 - 25 years). Our extensive list of credits are testament to our young actors' professional approach and ability to deliver stand-out and memorable performances for TV, film, radio and commercial projects. Children are trained in both improvisation and scripted work to ensure they can quickly pick up on the style required. Lamont Drama School, which is affiliated to the Casting Agency, has an unusually high proportion of boys. We pride ourselves on being a forward-thinking agency which offers a streamlined and professional support system to minimise production headaches. Firstly, we have an in-house licencing department, which has a personal relationship with the majority of education authorities in the North West region, allowing the licencing process to be as quick and efficient as is possible. We also provide fully qualified, experienced chaperones, who are not only used to working with Lamont children, but are also experienced in caring for children from other agencies, offering a one-stop shop of support. To fully appreciate the range of talent we have to offer, we regularly organise drama and casting workshops (free of charge) at the Lamont Drama Studios. Lamont Casting is a member of Casting Networks. For full list of credits, please visit our website www.lamontcasting.co.uk
